

Analog Sites for Mars Missions II: Past, Present and Future Missions to Mars

Washington, DC • August, 2013

List of Contributed Abstracts

<u>The Tunnel Valley Analog of the Inner Channels of Kasei Valles, Mars: Key Sites in the Mars Channel/Trough Debate</u>	
<i>J. D. Arfstrom</i>	4001
<u>HI-SEAS (Hawaii Space Exploration Analog and Simulation, hi-seas.org) as an Opportunity for Long-Duration Instrument/Protocol Testing and Verification</u>	
<i>K. A. Binsted and J. B. Hunter</i>	4044
<u>The Skouriotissa Mine: A New Terrestrial Analogue for Hydrated Mineral Formation on Early Mars</u>	
<i>N. Bost, C. Ramboz, F. Foucher, and F. Westall</i>	4006
<u>Utilizing the Mauna Kea Subsurface Environment to Model Extant or Ancient Chemolithoautotrophic Iron-Oxidizing Activity in an Anoxic Environment</u>	
<i>C. Bradburne</i>	4043
<u>Extensive Groundwater Diagenesis on Mars: Terrestrial Analog Insights to Deducing Aqueous History</u>	
<i>M. A. Chan, C. H. Okubo, W. H. Farrand, B. B. Bowen, J. Ormo, and G. Komatsu</i>	4010
<u>Volcanogenic Arctic Mars Analogs</u>	
<i>C. R. Cousins, S. Mikhail, C. S. Cockell, and J. Harris</i>	4023
<u>Extreme Desert Analogs for Astrobiology Studies</u>	
<i>A. F. Davila and C. P. McKay</i>	4018
<u>The Altiplano-Puna Plateau of the Central Andes as an Analog Laboratory for Mars</u>	
<i>S. L. de Silva, M. Spagnuolo, N. Bridges, J. Zimbelman, J. G. Viramonte, B. Bills, and J. Bailey</i>	4016
<u>Rock Microhabitats from the Atacama Desert as Analogs for Mars Environments</u>	
<i>J. DiRuggiero, J. Wierzchos, C. K. Robinson, A. Crits-Christoph, and J. Ravel</i>	4024

<u>Sulfate-Rich Playa Deposits from White Sands National Monument, a Terrestrial Analog to Martian Playas</u>	
<i>M. Glamoclija, A. Steele, M. L. Fogel, and V. Starke</i>	4034
<u>“Drill Hill” in Haughton Crater, Devon Island, Canada</u>	
<i>B. Glass and P. Lee</i>	4039
<u>Drill and Sample Acquisition Testing Using Planetary Analogs</u>	
<i>B. Glass and M. New</i>	4028
<u>Rio Tinto Ferric Sulfates and Iron Oxides as Mineralogical Analogs to Mars</u>	
<i>D. F. Gleeson, P. Martin, D. Fernandez Remolar, R. Moissl, and V. Ruiz</i>	4015
<u>Mauna Kea Volcano, Hawaii: A Mineralogic and Geochemical Analog for Mars</u>	
<i>T. G. Graff, R. V. Morris, D. W. Ming, J. C. Hamilton, and J. Smith</i>	4022
<u>The MARS2013 Mars Analog Mission in Morocco</u>	
<i>G. E. Groemer and G. G. Ori</i>	4009
<u>JUNO II Rover as an Exploration Test Bed for Mars Missions, Solo and Human Assisted</u>	
<i>J. C. Hamilton, P. Visscher, and C. B. Andersen</i>	4041
<u>Understanding the Sources of Oxygen Isotopic Anomalies in Martian Meteorites</u>	
<i>A. Hill, R. Shaheen, K. Chong, and M. H. Thiemens</i>	4038
<u>Volcaniclastic Paleosol Sequences: An Analog for Reconstructing Surface Environments from Clay-Bearing Layered Deposits on Mars</u>	
<i>B. Horgan and P. Christensen</i>	4037
<u>Developing and Optimizing in Situ X-Ray Phase Contrast Microimaging Capabilities Through Analog Study and Fielding Testing for Mars Samples Return</u>	
<i>Z. W. Hu</i>	4036
<u>Northwest Nili Fossae: A Possible Ancient Hot Springs Area</u>	
<i>Z. K. Kaiser and C. K. Konen</i>	4040
<u>Haughton Impact Crater and Surrounding Terrain, Devon Island, High Arctic: A Multi-Mission Mars Analog Science Site</u>	
<i>P. Lee, T. Fong, B. Glass, S. J. Hoffman, C. Hoftun, K. Lorber, C. P. McKay, R. Mueller, J. Parnell, J. W. Schutt, and K. Zacny</i>	4029
<u>MSL SAM-Like Evolved Gas Analysis of Mars Analog Samples from the Arctic Mars Analog Svalbard Expedition: Implications for Analyses by the Mars Science Laboratory</u>	
<i>A. C. McAdam, J. C. Stern, P. R. Mahaffy, D. F. Blake, R. V. Morris, D. W. Ming, T. Bristow, A. Steele, and H. E. F. Amundson</i>	4031

<u>Acid-Sulfate Alteration of Basalt at Cerro Negro Volcano, an Analog for Formation of Sulfate Deposits on Mars</u>	
<i>T. M. McCollom, B. M. Hynek, and K. L. Rogers</i>	4017
<u>Present-Day Continental Sites of Serpentinization as Analogs for Serpentinization on Mars</u>	
<i>P. M. Morrill, N. Szponar, H. Kavanagh, A. Rietze, L. Kohl, W. J. Brazelton, M. O. Schrenk, S. Lang, J. G. Kuenen, B. Sherwood Lollar, J. L. Eigenbrode, D. M. Bower, A. Steele, M. L. Fogel, S. Suzuki, and K. H. Nealson</i>	4007
<u>Spectral Study of Water Tracks as an Analog for Recurring Slope Lineae</u>	
<i>L. Ojha, M. B. Wilhelm, and J. J. Wray</i>	4013
<u>Sahara as a Continent-Wide Mars Analogue and the Ibn Battuta Centre at Marrakech</u>	
<i>G. G. Ori, I. dell'Arciprete, and K. Taj-Eddine</i>	4014
<u>Late Jurassic Rocks of the Colorado Plateau as Depositional and Diagenetic Analogs to Gale Crater, Mars</u>	
<i>S. L. Potter-McIntyre, M. Boraas, and K. DePriest</i>	4004
<u>Small Lakes at the Ice-Free Margin of Western Greenland as Mars Analogs to Evaluate Methane Dynamics</u>	
<i>L. M. Pratt, Y. Peng, S. B. Cadieux, S. A. Young, and J. R. White</i>	4025
<u>Endolithic Microbial Communities in Mars Analog Volcanic Fumaroles, Cerro Negro Volcano, Nicaragua</u>	
<i>K. L. Rogers, B. M. Hynek, and T. M. McCollom</i>	4030
<u>Gypsiferous Subterranean Environments as Potential Analog of Mars</u>	
<i>F. Rull, F. Gázquez, G. Venegas, J. M. Calaforra, J. Medina, and J. Martínez-Frías</i>	4011
<u>Potential Martian Analog Sites in Southeastern Spain</u>	
<i>F. Rull, G. Venegas, F. Gázquez, J. M. Calaforra, J. Martínez-Frías, A. Sansano, and J. Medina</i>	4012
<u>Exploring Single Station Seismometer Techniques on Earth in Preparation for the InSight Geophysical Mission to Mars</u>	
<i>N. C. Schmerr</i>	4026
<u>Billion Year Old Cratons Provide Clues for Habitability of Subsurface Waters and Reduced Gases on Mars</u>	
<i>B. Sherwood Lollar, T. Brisco, B. Esen, and G. Lacrampe-Couloume</i>	4008
<u>The Cuatro Ciénegas Basin in Coahuila, Mexico: An Astrobiological Precambrian Park and Mars Analogue</u>	
<i>J. S. Siefert, V. Souza, L. E. Eguiarte, and J. J. Elser</i>	4005

<u>Parallels Between Stratospheric Microbiology and Mars Astrobiology Missions</u> <i>D. J. Smith and A. C. Schuerger</i>	4003
<u>Automated Mineral Identification in Three Mars Analogue Sites Using In-Situ NIR Reflectance Spectroscopy and Linear Spectral Unmixing</u> <i>P. Sobron, G. Lopez-Reyes, and A. Wang</i>	4033
<u>Meteorites from Mars as Analogues for Mars Missions — The Gifts that Keep on Giving</u> <i>A. Steele, M. Glamoclija, F. McCubbin, L. Benning, and M. Fries</i>	4035
<u>Carbon Isotopic Measurements in Mars Analog Environments by Commercial Cavity Ringdown Spectrometry</u> <i>J. C. Stern, A. M. McAdam, P. R. Mahaffy, and A. Steele</i>	4042
<u>Terrestrial Efflorescences as Analogs for the Origin of Sulfate Minerals in Valley Settings on Mars</u> <i>A. Szynkiewicz and D. T. Vaniman</i>	4019
<u>The Khibiny Massif as Possible Analog Site for Future Geophysical Research on Mars</u> <i>S. A. Voropaev</i>	4002
<u>Mineralogical Environments Within Salt-Rich Subsurface at Atacama and Tibet Plateau</u> <i>A. Wang and J. L. Lambert</i>	4027
<u>Organic Entrainment and Preservation in Volcanic Glasses</u> <i>M. B. Wilhelm, L. Ojha, A. E. Brunner, J. Dufek, and J. J. Wray</i>	4021
<u>Lonar Crater, India: An Analog for Mars in the Field and in the Laboratory</u> <i>S. P. Wright and H. E. Newsom</i>	4032
<u>Testing of Drill Systems in Analog Environments</u> <i>K. Zacny, G. Paulsen, and J. Craft</i>	4020
